

ENERGY ENOUGH EXERCISED TO SUPPLY THE WORLD THROUGH ALL ITS CENTURIES TO COME

When the Bonanza was asked to compute the number of tons of earth and rock that were moved by the earthquake Saturday night and referred the computation to H. H. Bacon, it was done in a spirit of jest, not knowing that Mr. Bacon would take the matter seriously, but he and his office manager, E. J. Ramsey, sat themselves down and did some calculating, that is Mr. Ramsey did, while his boss busied himself working out a chess problem. Both were kept busy until after the midnight hour, when Bacon exclaimed: "It can't be did. The queen can checkmate in five moves with white given the start, but otherwise it develops into a stale." At the same instant Ramsey cried out: "I've got it. Here are the figures:

K. C. WILL ENTERTAIN

TWAS ALWAYS THUS

On Tuesday night at 8 o'clock the Knights of Columbus will be at home to their friends at their hall on Boucher avenue. A choice literary and musical program has been prepared and all members are requested to be present and to bring their friends and acquaintances for the enjoyment of what promises to be a very delightful evening. It would afford the Tonopah council of the Knights of Columbus great pleasure to welcome all others of their good friends who wish to spend a pleasant hour with them and to those who read this notice let known that they are most cordially invited to be present.—Adv082.

TO TRANSFER STATE POLICE TO THE PENITENTIARY

It is stated on good authority that before this month is gone the Nevada state police will be removed to the prison, says the Carson News.

It is the intention to have one of the present force in charge of the Berthillon system, with some of the trustees as assistants to do the routine work, but to have nothing to do with the records of the department. The other members of the force will probably be employed as extra guards and to be called upon in cases of emergency.

NOTARIES APPOINTED

J. P. Kennedy of Rochester was yesterday appointed as a notary public for the county of Humboldt.

Notice of Application for Permission to Appropriate the Public Waters of the State of Nevada

Application No. 3438
Notice is hereby given that on the 14th day of June, 1915, in accordance with Section 59, Chapter 140, of the Statutes of 1913, one Mrs. Ida Lorenz, of Spanish Springs, County of Nye, and State of Nevada, made application to the State Engineer of Nevada for permission to appropriate the public waters of the State of Nevada. Such appropriation is to be made from Spanish Springs, consisting of two small springs, at a point approximately in the NE^{1/4} of NE^{1/4} of Sec. 15, T. 7 N. R. 44 E., M. D. B. & M., by means of pumps, and one cubic foot per second is to be conveyed to a point, approximately in the NE^{1/4} of NE^{1/4} of Sec. 15, T. 7 N. R. 44 E., M. D. B. & M., by means of ditches, pipes, tank and trough, and there used for domestic and stock watering purposes. Water not to be returned to stream. Date of first publication, Sept. 11, 1915. Date of last publication, Oct. 2, 1915. (Signed) W. M. KEARNEY, State Engineer.

ASSESSMENT NOTICE

TONOPAH GYPSY QUEEN MINING COMPANY
Location of principal place of business and location of works, Tonopah, Nye County, Nevada.

Notice is hereby given that at a meeting of the board of directors held on the 23rd day of September, 1915, an assessment (No. 7) of one cent per share was levied upon the capital stock of the corporation payable immediately in United States gold coin, to the Secretary, at the office of the Company, Room 265, Russ Building, San Francisco, California.

Any stock upon which this assessment shall remain unpaid on the 29th day of October, 1915, will be delinquent and advertised for sale at public auction, and unless payment is made before, will be sold on Monday, the 6th day of December, 1915, to pay the delinquent assessment, together with the costs of advertising and expenses of sale.

By order of the Board of Directors,
CHARLES D. OLINEY, Secretary,
Office, Room 265 Russ Building, San Francisco, California.

"Assuming that the zone of influence of the tremor was 1500 miles by 1400 miles, and that the snake extended to a depth of 1220 feet, as evidenced by the miners who were working in the Tonopah properties, and that it continued to that depth throughout the extent of the surface disturbance, it meant the moving of 77,287,934,800,000,000 cubic feet of rock, weighing 7,727,592,480,000,000,000 pounds, or 3,853,946,240,000,000 tons. It will require another quite of paper to work out the horse power exercised in this movement, but it certainly was sufficient to supply all the energy needed in the transportation and manufacturing industries in the world from the dawn of creation down to the far future times."

TWAS ALWAYS THUS

For three weeks now the Nevada Democrat has failed to reach its subscribers, and this circumstance, coupled with rumors that have been flying about the past few months of an empty treasury, gives credit to the belief that it has ceased and gone to the journalistic graveyard. Well, it was to be expected. It was started under conditions that were, to say the least, peculiar, and it entered a field that was already pretty well covered. As stated in its initial number, it was to be published under the auspices of the Democratic state central committee, and gave as one of the reasons for its being that other Democratic papers in the state had failed in the standard which the Democrat was going to establish and maintain. It was published under the auspices of the Democratic committee all right, and the members thereof saw to it for awhile that there was sufficient money on hand to keep it going, but soon it began to diffuse the thought and expression of a very small portion of the Democratic party; then it was all off. And it will always be thus.—Appeal.

DUST DISSIPATED

The pale department was out with a line of fire hose this morning and the principal streets were given a thorough wetting down, something which was badly needed, in view of the dust storms that have been prevailing the past several days. The pressure was excellent, the stream being thrown for half a block.

If you are charged less for some other make, they're taking it out of the tire.

If you are charged more, they're taking it out of you.

Punctures Vulcanized, 25¢

New Vacuum Cleaners for Rent

In February, 1913, the first shipments of BRASCOLITES were made. These shipments were purely local. One year later, or in February, 1914, shipments showed an increase of 3496 per cent and these shipments were made to all parts of the United States and Canada. In February, 1915, shipments showed an increase of 8578 per cent based upon the first month's business, and these shipments went to all of the continents and to nearly every country on the globe. This phenomenal increase is conclusive proof of the superiority of the system. Try a Brascolite at our expense.
